PROFESSIONAL SUMMARY

Information Systems undergraduate with over 3 years of hands-on experience in Fullstack Web Development. Proficient in building scalable applications using modern JavaScript ecosystems, including React, TypeScript, and Node.js/Bun. Adept at full-cycle development, from designing efficient database schemas to crafting responsive user interfaces. Passionate about software architecture, code quality, and delivering seamless user experiences.

TECHNICAL SKILLS

- Languages : TypeScript, JavaScript, Java, Rust.
- Frontend : React, Vue, Next.js, Vite, Tailwind CSS, Bootstrap, Framer Motion.
- Backend : Bun, Node.js, Hono.
- Databases : MySQL, Redis, MongoDB, PostgreSQL.
- DevOps & Infrastructure : Docker, Nginx, Linux.
- Tools : Git, GitHub/GitLab, Postman.

PROJECT

Sinari

Tech Stack : React, Vite, Hono, Bun, MySQL, Redis, Docker, Cloudinary.

- High-Performance Backend: Engineered a REST API using Hono & Bun with Redis caching and rate-limiting, achieving significant performance improvements.
- Store Management Features: Developed an RBAC-protected dashboard for inventory management and real-time customer service tracking using unique tokens.
- User Experience & Security: Implemented secure Google OAuth2 login and dynamic PDF invoice generation, utilized TanStack Query and Zod for robust state management and schema validation.

WhatsApp Bot Assistant

Tech Stack : Node.js, Baileys Library, JavaScript.

- Developed an automated WhatsApp bot using the Baileys library to streamline customer service operations and reduce manual workload at Sinari Cell.
- Implemented a command-based system to instantly retrieve real-time product availability and pricing from the database.
- Engineered automated Greeting & FAQ workflows, ensuring instant responses to common inquiries and improving overall response time.

TacSkills

Tech Stack : React, Vite, Typescript, Bun.

- Developed an interactive, modern twist on the classic Tic-Tac-Toe game, introducing unique gameplay mechanics with special abilities like Delete, Convert, and Sweep..

EDUCATION

Bachelor of Information Systems
Universitas Terbuka

2022 – Present

- Current GPA : 3.36 / 4.00

CERTIFICATES & TRAINING

- Cloud Practitioner Essentials (AWS Cloud) – Dicoding Indonesia
- Belajar Dasar-Dasar DevOps – Dicoding Indonesia
- Problem Solving (Basic) – HackerRank
- Student Developer Initiative Program – Hacktiv8 & IBM
- Fundamental of Network Engineer – Course-Net
